

"I am 12 years old and I really liked the information. It was really well presented and I can not wait for the next seminar." - Dee T. (Augusta, GA)

Student Motivation.

Students are provided with techniques that help them produce positive results in their everyday lives and vocations.

Financial Education.

Students learn real estate basics: how to purchase, financing, and escrow terms and concepts.

Social Entrepreneurship.

Students explore careers that are integral to the trillion dollars real estate industry on a global scale.

Mission

The foreclosure crisis and mortgage subprime lending is a part of history our nation will not repeat if we are using the proper tools and teaching our children on how to be responsible producers and consumers of their Era.

Like many pre-requisite courses or beginner's class needed in college, let this be the first pre-requisite to home buying before high school culmination.

Class is in session!
